SADDLEBAGS WITH HEAT SHIELDS

- *Black, durable 600-denier PVC-backed polyester withstands roughest conditions*
- *Approx. 2,794 cubic inches (46 liters) of storage*
- *Mount easily and provide extra storage space*

Large saddlebags are 11"H x 13"L x 7"D. Tops open at front, side and rear with hinge on the wheel side of bag. Upper outer wheel side of bags feature a no-scratch material panel to protect painted finish. Lower 4" of both the outer wheel side and front of bag plus bottom feature silver-colored heat shield fabric that helps protect against hot pipes. 4 black tri-rings on top allow extra external item storage. Each bag has a sewn-on side compartment (9"H x 11"L x 3"D) and front compartment (5-1/2"W x 5-1/2"H x 3"D). 2 adjustable yoke straps plus adjustable tie-down straps (2 per bag) for easy mounting to bike. Bags can be separated when needed. Sold in pairs.

Soft interior liner/stiffeners provide added protection for gear and help bags hold their shape. 3-sided wraparound zippered openings with flaps for easy access to stored gear. Sewn-on web carrying handles and/or shoulder straps. Include a water-resistant, charcoal color coated polyester rain cover with elasticized hem. Cover folds up when not needed. Self-healing, small-tooth nylon zippers are protected by overlapping storm/weather flaps. 2-way double-pull zippers on all compartments speed up packing. Reinforced seams and stress points for long service. Adjustable nylon mounting straps where applicable. With mounting and care instructions. Notes: (1) "Front" indicates side of bag nearest driver. (2) Before ordering, measure space where bags will be mounted to ensure sufficient space and clearance.
